

Cognyte

Business Reference

for Sb Accounting & Consulting

”

I am writing this letter to highly recommend Sb Accounting & Consulting as a reliable and professional partner for accounting and compliance services. Cognyte has been working with Sb since March 2023, and throughout this period, they have consistently demonstrated high levels of professionalism and expertise.

Sb provides us with a comprehensive range of solutions, including accounting, payroll, liquidation, and various ad hoc services.

Our experience with the quality, accuracy, and timeliness of their work has been very good in general. We are particularly happy to work with Ani, who handles our payroll and VAT, and Galina for our accounting needs. Additionally, we highly appreciate Latchezar for his expert guidance on tax and other complex matters. The responsiveness and communication of the Sb team are excellent; they are consistently responsive, and their communication is always clear and to the point.

Our overall experience with Sb as a reliable accounting and compliance partner has been very good. In fact, our trust in their capabilities is the primary reason we recently decided to request their specialized help with SAF-T compliance as well.

We would for sure recommend Sb to other companies looking for a dependable, accurate, and highly professional accounting partner.

Best regards,
Marina Spyrou
